Overall the written examination was seamlessly conducted on the weekend by the PPSC. The PPSC deploys Jammers to disconnect any electronic gadget at its examination centres to block the outside communication. The PPSC circulated the instructions to the candidates in express terms that no candidate will take question paper and answer sheet outside the examination centre. However, after completion of the tests, someone uploaded two question papers on Social Media.

PPSC assures all candidates that this post paper activity has and will in no way affect the results as the tests have been conducted with complete transparency. Additional measures will also be taken to safeguard against such inappropriate actions in future.
